

For years in our home, there was no such thing as a quiet weekday evening until after 9PM when on going and unwanted telemarketing calls ceased for the night only to begin again at 8:55 A.M. on Saturday! That all changed when I signed up for the Do Not Call list. Please protect our peace and privacy by keeping this law on the books. I never purchase anything through a phone solicitation so it is a waste of their time and mine. I have many, many friends who feel the same as I do. Let this law stand. Protect us, as consumers and tax payers, from having our privacy incessantly violated in our homes, by unwanted and often rude telemarketers. Thank you.
